

Urology

У підготовці підручника об'єднані зусилля і досвід провідних вітчизняних фахівців-урологів. Головна особливість цього підручника в тому, що він є першим базовим підручником з навчальної дисципліни “Урологія”, який підготовлений відповідно до затвердженої МОЗ України сучасної навчальної програми для студентів медичних факультетів вищих медичних навчальних закладів IV рівня акредитації. Підручник, окрім студентів інтернів, буде корисний також молодим лікарям та викладачам урології. Затверджено Міністерством охорони здоров'я України як національний підручник для студентів вищих медичних навчальних закладів IV рівня акредитації (протокол № 2 від 26.10.2011 р.) засідання науково-методичної комісії з медицини Міністерства освіти і науки, молоді та спорту України).
